

STOP THE PROPOSALS TO CRACK DOWN ON FOREIGN RESIDENTS!

Rally Against Reforms to Immigration Law

The "NGO Committee against the Introduction of the 'Zai-ryu' Residence Card" calls on people living in Japan, both citizens and foreign residents, to join together to oppose discriminatory reforms to immigration law.

Date : **May 24 (Sun)**
14:00-15:30 Assembly
16:00-17:00 Rally

Location : **Koutsu Biru in Shimbashi**
Minato-ku, Shimbashi 5-15-5
6 minutes walk from JR Shimbashi Station,
Karasumori Exit

The assembly will include an overview of the proposed reforms to Immigration Law, and speeches by the affected parties. Participants are encouraged to bring their own banners and signs to carry in the demonstration.

BACKGROUND :

Reform bills proposed this year will mean stricter registration requirements for foreign residents and stiff penalties for infractions. Foreign residents will be obliged to report changes in personal information, such as moving to a new address. Failure to notify on time can mean a fine of up to ¥200,000, and, in some cases, revocation of visa. Documented foreigners will be subject to heightened surveillance, while undocumented foreign residents will "disappear" from the record and be excluded from social services entirely.
